“HARNESSING LIMITED RESOURCES WITH BIG IMPACT”

Dr. Eve Nakabembe, senior lecturer, consultant Obstetrician gynecologist, and Global health advocate. With over 15 years experience in both Global Health and Obstetrics -gynecology, Eve is a recipient of several awards including Uganda’s National Heroes Medal: Golden Jubilee Medal and the Rising star Award Grand Challenges. Her work focuses on multi-disciplinary approaches to reducing Global Maternal Newborn Morbidity and Mortality, an area in which she has written and published.

Eve will be discussing her work in addressing health inequities in Uganda, harnessing low resource innovations with big impact, and challenging participants to reflect on how local health inequities can be addressed with low resource innovations.
